- ✓ **RAM:** 2 GB
- ✓ **Video Card:** 512 MB with support for DirectX 9.0c
- ✓ **Sound card:** compatible with DirectX® 9
- ✓ **Free hard drive space:** 17 GB

Description:

Authentic, beautiful, emotional football! Time-tested gameplay of FIFA just got better thanks to innovations that encourage creative play in midfield and allowing it to set the pace. Create poignant moments and have no incomparable pleasure of scoring goals!

FIFA 14 supports the EA SPORTS Football Club – the online service through which you can always stay connected with the world of the football and, of course, with like-minded people. And of course, the regular season continues the tradition of the famous series of best-fit real sport: the game includes only licensed clubs, leagues and more than 15,000 athletes.

Now you can change the width of the step of virtual players to choose the angle of approach to the ball so as to carry out the most dangerous attack on goal, as well as punching spontaneously and even an awkward position. "Tat" in the middle of the field and set the pace of the game, block defenders, dribbling performing at any speed and in any direction, occupies a prime position before taking the ball to the opponent failed to select it.

Develop and improve its network of scouts and look for talent! Evaluate players, learning their characteristics, to determine which of them will strengthen your team. With a new coaching center to handle reports of scouts coming in real time, it has become much easier and more convenient.

Features:

- The most realistic ball physics allows even stronger and more technical punches than before
- Improved system shock – breaks from long range, let the ball at a low trajectory, tighten it, kick "the collar" in exactly the way in the present football
- System "first touch" now works for dribbling, affecting how different players lead the ball at speed
- Hone techniques and improve their skills in training mode alone or competing with your friends new mini-games
